

Emailed Letter to Current and Likely Republican Party Candidates for Ottawa County Board of Commissioners:

Dear xxx:

The SaveTheCampbell.com effort is making good and steady progress towards our goal of [12,000+ petition signers to put the charter question on the ballot](#) as the means to stop the 2025 closure of the county Campbell plant which provides electric for 1 million regional residents. A county charter will allow the county to gain local control and stop the closure and demolition of the Campbell plant, as well as provide other local control benefits.

It is also our goal to have a Republican candidate for County commissioner in every district who supports [the “Save The Campbell” Plan](#) and [the Home Rule County Charter Consistent with the USA’s Founding Christian Constitutional Principles](#). This is important for several reasons:

- We need a Board supportive of our efforts to thwart the imposed tyranny of the Biden/Whitmer/etc. regime, including on the issue of the Campbell plant (for example, [we need help in stopping or at least slowing down their plans by legal action](#) even as we implement a charter county which will place the Campbell plant in an electric cooperative).
- As a backstop to getting the charter county on the ballot (a majority of the Board may accomplish in getting the charter question on the ballot, which is much simpler than the petition process).
- We need County leaders supportive of thwarting the imposition of tyranny on energy policy as well as a number of other issues which our proposed county charter addresses.

Here are just some of the tyrannical Biden/Whitmer/etc. impositions which the proposed charter works to thwart:

- An energy policy which destroys reliable, affordable, environmental electric
- An open borders policy which erodes our national sovereignty and moves us towards globalist Marxism
- An anti-life policy which legalizes and promotes murder of humans
- A marriage and sex policy which overthrows the Biblical definition of marriage and promotes the LGBTQ agenda
- An election policy which undermines election integrity

Regarding energy policy, [our electric grid operator MISO warns us that their plan in 2025 starts to make our regional electric grid unreliable and it gets progressively worse in the years following](#) as they get deeper into their program of converting us over to solar panels as a base. Even if in 2025 the problems are minor, there is good reason to believe in the years thereafter

things will get much worse. But by then they will have demolished the Campbell plant, and as a county we will be in a weak position to do anything about it. Now is the time to stop the misguided Biden/Whitmer/etc. energy plan before the Campbell plant is closed and demolished.

There have been various objections to our plan, and those are addressed [here](#).

With that background, we are asking all current and likely Republican Party candidates for Ottawa County Board of Commissioners to provide us in writing your view of [the “Save The Campbell” Plan](#) and [the Home Rule County Charter Consistent with the USA’s Founding Christian Constitutional Principles](#). I would request you email to me at joseph.mccarter@gmail.com your view as soon as possible.

Thanks for your assistance in this matter!

Sincerely,

A handwritten signature in cursive script, appearing to read "Joseph Parnell McCarter".

Joseph Parnell McCarter
